

Applied and Computational Harmonic Analysis

*Time–Frequency and Time–Scale Analysis, Wavelets,
Numerical Algorithms, and Applications*

Editors-in-Chief

Charles K. Chui
Stanford University

Ronald R. Coifman
Yale University

Ingrid Daubechies
Princeton University

Associate Editors

David Donoho
Stanford University

Yves F. Meyer
*CMLA
Cachan*

Martin Vetterli
*EPFL
University of California
Berkeley*

Stephane G. Mallat
*École Polytechnique
Palaiseau*

Vladimir Rokhlin
Yale University

Software Editor

M. V. Wickerhauser
*Washington University
St. Louis*

Editorial Advisory Board

Alain Arnéodo
*École Normale Supérieure
Lyon*

Leslie F. Greengard
*Courant Institute
New York University*

Henrique Malvar
Microsoft Corporation

Pascal Auscher
Université de Paris XI-Orsay

Karlheinz Gröchenig
University of Vienna

Charles A. Micchelli
*State University of New York
at Albany*

Radu Balan
Siemens Corporate Research

Richard Gundy
Rutgers University

Peter Oswald
*International University
Bremen*

Richard Baraniuk
Rice University

Christopher Heil
Georgia Tech

Dominique Picard
Université de Paris VII

Guy Battle
Texas A&M University

Matthias Holschneider
*CNRS-Luminy
Marseille*

Amos Ron
*University of Wisconsin
Madison*

Gregory Beylkin
University of Colorado, Boulder

Stephane Jaffard
Université de Paris XII

Joachim Stöckler
Universität Dortmund

Albert Cohen
Université Pierre et Marie Curie

Rong Qing Jia
University of Alberta

Wim Sweldens
Bell Laboratories

Wolfgang Dahmen
RWTH Aachen

Qingtang Jiang
University of Missouri-St. Louis

Bruno Torresani
*Université de Provence
Marseille*

Marie Farge
*École Normale Supérieure
Paris*

Iain M. Johnstone
Stanford University

Guido L. Weiss
*Washington University
St. Louis*

Hans Georg Feichtinger
Vienna University

Jelena Kovačević
Carnegie Mellon University

Pierre G. Lemarié-Rieusset
Université d'Evry

Patrick Flandrin
*École Normale Supérieure
Lyon*

W. R. Madych
University of Connecticut

M. V. Wickerhauser
*Washington University
St. Louis*
